

West Berkeley Alliance for Clean Air and Safe Jobs **THE FACT SHEET**

Pacific Steel Casting Company is a steel foundry in West Berkeley. It offers good union jobs, but it has been polluting Berkeley and beyond for over 25 years. Pacific Steel must protect workers, the community and the environment by stopping the pollution.

ODOR NUISANCE & TOXICS

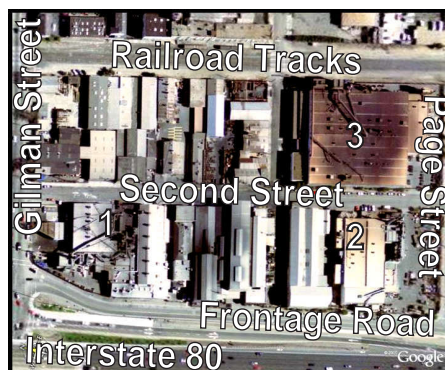

Do you smell something like burning brakes or burning pot handles? Pacific Steel's pollution can cause headaches, nausea, difficulty breathing, or eye and throat irritation. Pacific Steel produces hydrocarbons, heavy metals, and other particulates and gases.

WANT CLEAN AIR?

Call 1-800-334-6367 to complain every time you smell the odor!

HEALTH HAZARDS

Chemicals from Pacific Steel can contribute to neurological harm, cancer, birth defects, respiratory problems (like asthma), and reproductive disorders.

Pacific Steel Plants 1, 2 & 3

Protect pregnant women, children, elders, workers, businesses, and the East Bay. Let's stop the pollution now!
